WORK EXPERIENCE

UX DESIGNER

Consafe Logistics | Lund, Sweden | 2021 - present

- Designing a new generation of software for warehouse management operations. Together with the team working with concept development and maintenance of our in-house design system.
- Responsible for usability testing, preparing final design deliverables, and drafting acceptance criteria for implementation. Working closely with all departments and actively involving existing local & international customers and their end-users and gathering feedback to help us iterate on current design solutions.
- In charge of onboarding new UX colleagues, documenting the team's internal UX process, and planning UX metrics strategy. Facilitating workshops and lectures across departments with the ambition of increasing the design maturity of the company.

CULTURAL ANALYST, MASTER THESIS PROJECT

Uppåkra Archaeological Centre | Uppåkra, Sweden | 2016

- Responsible for project leadership, communication with the client, recruiting informants, focus group interviews, context mapping, participant observations, transcribing material, defining research problem, ideation (personas, scenarios), designing deliverables (storyboards), writing reports, and presenting results for the client.

RECEPTIONIST

Studentinfo, Akademiska Föreningen | Lund, Sweden | 2015 - 2017

Pantheon Technologies | Bratislava, Slovakia | 2013 - 2015

- Responsible for handling incoming calls, emails, and reservations, and organizing internal events. Responsible for providing advice to students in person, via email or phone, selling campus clothes, and tickets to student events and overseeing inventory and office supply purchases.
